October 2013

October is a wonderful time of year for the golf course.

The playing condition of the course is spectacular; we invite you to come see for yourself. Please consider calling a friend or former member to come play a round of golf. Your role in this effort is very important. There is no better steward for LHCC than a current Member. Your referrals will always be critical to success in this area.

During the next several weeks the executive committee and managers will begin budget planning for 2013. With the current membership levels this process will challenge our daily operations as we go into next year. I welcome your suggestions and anyone to assist in our quest on improving the services which are provided.

#### **Please Note:**

We have been having unknown cars coming onto the property during the early morning hours. At this point we have been very fortunate not to have had any damage or vandalism. However, at this time we do feel the need to secure the entrance onto the property. Beginning in October, as the last employee leaves the property they will secure our driveway with a cable running across the brick columns.

## Congratulations

Big congratulations to Andy Chaloux as he accomplished shooting his age or better for the 100<sup>th</sup> time on September 18<sup>th</sup>. #### The Latest on Link Hills

Most recently, a task force appointed by our board of directors has formed to discuss the status of our great club. This panel consists of our current Link Hills board of directors, LLC board members, and business leaders of Greene County. The group met on September 22<sup>nd</sup> to exchange information and formulate potential solutions for the future of Link Hills. All present agreed that Link Hills continues to be a very important asset in our community; but with challenging trends to the country club industry our future direction must be assessed. The panel recommended that a golf industry "expert" be retained for a comprehensive research, focusing on area demographics and social economics. This feasibility study will help define our direction for our options going forward.

In difficult times, rumors and misleading information always seems to circulate mostly bearing bad news. It is the board's intent to continue to operate as a private club with all of our current amenities. In order to do so we will have to be successful in bringing new people to our club. Only through the support of our community leaders and our existing club members will this be possible.

We will continue to inform you with progress and developments in the coming weeks. Please remain positive, protective and proud of Link Hills Country Club.

Most importantly, thank you for your membership and support of our great club.
